

# BURNS WARD EQUIPMENT

Hygiene Equipment Designed for People

# Product Range

### Burn Care

We collaborate with every specialty in the hospital to advance new surgical techniques, teach tomorrow's surgeons and give our patients a brighter today.

### Burn Ward

Burn Injury is potentially a big Public Health Problem. In fact, more people die due to burn injury compared to others. In India alone, around 7 million persons suffer from burn injury, out of which, 7 lakh need hospital admission and 2.4 lakh become disabled.

### Focus Areas of The Programme

**Prevention** : Prevention is one of the crucial aspects of any programme; the same is true for the burn programme as well, as a large percentage of burn.

**Treatment** : Physical Infrastructure in identified District Hospitals will be strengthened by establishing/strengthening burn units through National Programme.

Grants will be given to the states for construction/alternation/renovation/modification of the existing structure, engagement of manpower and purchase of equipments. The burn unit in a District Hospital will have 6 beds (4 general beds + 2 acute care beds) and other facilities. In order to prevent infection, there will be packaged type air cooled/water cooled units with requisite number of air changers.

**Rehabilitation** : Follow up and rehabilitation services will be provided to restore functional capacity of burn patients thereby, enabling the patients to achieve functional independence and better quality of life. Existing Physiotherapy units will be strengthened by adding more equipment, and by providing Physiotherapists and Community Based Rehabilitation Workers for rehabilitation of burn victims.

## Shower

TR Equipment offers advanced shower chairs and the widest shower trolley program on the market with several options regarding sizes and Working Load Limits, both hydraulic and battery operated.

### Shower chair

**TR 1000** Battery operated height adjustment and tilt

### Hydraulic shower trolley models

**TR 2000** Available with various stretcher lengths

### Battery operated shower trolley models

**TR 3000** Available with various stretcher lengths

### Bariatric shower trolleys

**TR 4000 ATLAS** Working Load Limit: 450 kg/1000 lbs

**TR 4200 ATLAS JUNIOR** Working Load Limit: 270 kg/600 lbs

## Bath

TR Equipment offers a wide range of height adjustable bathtubs which all give an ergonomic and efficient treatment and a relaxing bathing experience.

## Mobile Lifts

TR Equipment offers a selection of mobile patient bath Lifts to be used for many different purposes when transporting and bathing patients.

### Height adjustable bathtubs

**TR 900** Available with stainless steel tub

### Height adjustable autofill bathtubs

**TR 900A** Available with fibre glass tub

### Mobile patient bath Lifts

**TR 9650** Stretcher/Combilift

### Height adjustable wellness bathtub

**TR COMFORTLINE II** Available in fixed height version

### Space saving height adjustable bathtub

**TR 1700**

**TR 9650** Chairlift

## Rehab

TR Equipment offers a tilt table used for rehabilitation purposes

**TR Classic** Tilt table

## OUR SOLUTIONS

TR EQUIPMENT

- Pneumatic Waste & Laundry Collection System (PWLCS) • Pneumatic Tube System (PTS) • Bio-Medical Waste Treatment System (ISS)
- Central Sterile Supply Department (CSSD) • Modular OT / ICU / Emergency Room / OT Integration • Medical Gas Pipeline System (MGPS)
