

CURTAIN TRACK | IV TRACK WALL GAURD

Hospital Curtain Track System

Meets the accepted standard for the over-whelming majority of healthcare facilities nationwide and is ideal for enclosing patient beds, shower area or anywhere personal privacy is required. It provides an easy to install and cost-effective partitioning method in multi-bed hospital wards, which helps to offer some privacy to patients and staff. They can also be used as screening in retail/leisure changing rooms and shower areas. The white powder coat finish of the track is aesthetically pleasing and easy to clean curtains.

Key Features:

- Modular system allowing flexibility to configuration to satisfy individual requirements.
- Rigid and durable curtain track made up of Aluminum extruded alloy.
- Runner run smoothly and quietly.
- Metal components are white powder coated to provide an aesthetic and easy to clean finish.
- Track mounted on the ceiling with the suspender, wall brackets and bridge clamps.
- Heavy work loading capacity runner for the curtain ensure the free and effortless movement in the track.

- 100% polyester fabric premium quality curtains with netted top to give aesthetic look.
- Water repellant, wrinkle free, antimicrobial and fire retardant treated fabric.
- Multiple choices of fabric & design are available.
